Python script to change Relion coordinates to cisTEM

Hello,

I have written a short script which might be a good addition to moving from Relion to cisTEM. For me there was a problem with the provided script so I hope some of you will find this one useful. You can check it on the github: https://github.com/dzyla/relion_to_cistem

Best,

Dawid

Hi Dawid,

Hi Dawid,

Thank you very much for this - I'm sure other people will find it useful.

Cheers,

Tim
