Resume autorefine

Hi,
I am frequently facing the problem that autorefinement just aborts without error message.
This very likely is an server issue and not related to cistem.
However, it would be great to resume the refinement from the last iteration.
If that is possible, how can I manage to do?

Thanks!
tarek

timgrant

Hi Tarek,

Hi Tarek,

This is not currently possible, you can only resume using the manual refine panel.

Cheers,

Tim

tarek

Hi Tim,

Hi Tim,
thanks for the reply.

Another thing you should consider for the final release ;)

Best,

tarek
