Template matching via command line

Hello everyone, And Happy New year !

Is it possible to run 2DTM via command line ?

Best,

Cyntia

niko

Yes, but the job cannot be

Yes, but the job cannot be parallelized across several machines/nodes.
The parallelization is a function of the GUI.

himesb

cli

Hi Cyntia

The program name is "match_template"

Running this from the CLI will bring up an interactive prompt.
